EDUCATION

Nikola Vaptsarov Naval Academy *September 2023 - Present*
Bachelor's Degree in Cybersecurity
Grade: A* (5.50 / 6.00 - last academic year)

- **Cybersecurity and Cyber Defense, Computer Vulnerabilities and System Protection, Penetration Testing**, Computer and Network Technologies, Computer Network Design and Administration, Operating Systems, Database Design and Programming

High School of Informatics "Dr. Ivan Bogorov" *September 2018 - May 2023*
Professional Qualification in Software Development

EXPERIENCE

TEREM - Koraboremonten Zavod Flotski Arsenal, Varna *September 2026 - September 2026*
Cybersecurity Intern

- Built a **prototype of the organization's real security monitoring system**, designed around **NIS2 and GDPR** requirements.
- Set up a **3-server environment on Ubuntu Server / VMware** for security event collection, analysis, logging, and traceability.
- Implemented **automated response to selected incidents** using **n8n** workflows and **AWX (Ansible)** automation.
- Connected a **Windows machine** to Wazuh through the **Wazuh Agent** to report security events.
- Validated the setup with a **test threat** that was detected and logged by the servers, confirming a working connection between components.

PROJECTS

- Security Monitoring & Automated Response Prototype - Wazuh for **monitoring and event analysis**, n8n for **workflow automation and event processing**, and AWX for **Ansible-based automated tasks**; built on Ubuntu Server / VMware around NIS2 and GDPR requirements.
- Full-stack web application for recipes and menus (MySQL, TypeScript, React) - designed the relational schema, wrote SQL queries, and connected the database to the application so users can browse and manage recipes and menus.
- **Windows & Identity Infrastructure Lab** - Administered **Windows Server and Active Directory**, plus Debian Linux, in virtualized lab environments (VMware, VirtualBox).
- **Cisco Network Design Labs** - Configured **Cisco routers and switches** in university lab sessions; used **Cisco Packet Tracer** for network design, simulation, and troubleshooting.
- **Offensive Security Practice** - Completed university courses in **Penetration Testing** and **Computer Vulnerabilities and System Protection**; used **Kali Linux** for offensive exercises and **Wireshark** for traffic analysis. Working through **Hack The Box Starting Point** (enumeration, exploitation, privilege escalation).

SKILLS

- **Security:** Wazuh (SIEM/XDR), Kali Linux, Wireshark, Log & Event Analysis, Penetration Testing Fundamentals, Hack The Box
- **Compliance:** NIS2, GDPR (through project work)
- **Identity & Systems:** Microsoft Active Directory, Windows Server, Debian Linux, Ubuntu Server
- **Automation:** n8n, AWX (Ansible), Python, Shell
- **Virtualization & Networking:** VMware, VirtualBox, Cisco Routers/Switches, Cisco Packet Tracer
- **Languages & Databases:** C#, SQL (MySQL, Microsoft SQL Server, Oracle)
- **Office:** Microsoft Excel, PowerPoint, Word

WORK EXPERIENCE

AquaSafe Pool Management, Inc. - Maryland, United States *May 2025 - September 2025*
Lifeguard - Full-Time

- Responded to emergency situations by **following established procedures**.
- **Escalated issues promptly** and stayed calm under pressure.

Lidl Bulgaria EOOD *June 2024 - October 2024*
Cashier / Sales Assistant

- Restocked and organized goods and shelves, supporting **store logistics** and product availability.
- Worked **accurately and with discipline** in a team.
- Followed company **quality and safety standards**.
